About Project

The REFRESH project, aimed at advancing green and sustainable economic development in Azerbaijani universities, is strategically designed based on comprehensive analyses of both international and national reports.

Objectives

Objective #1

Improving local competencies by building capacity of teaching staff.

Objective #2

Improving teaching and learning outcomes at the HEIs to respond to pressing demand of the local labour market.

Objective #3

Fostering government academia industry partnership through the project implementation

Objective #4

Fostering stable network among Azerbaijani and European universities and increasing awareness on renewable energies at a national level.

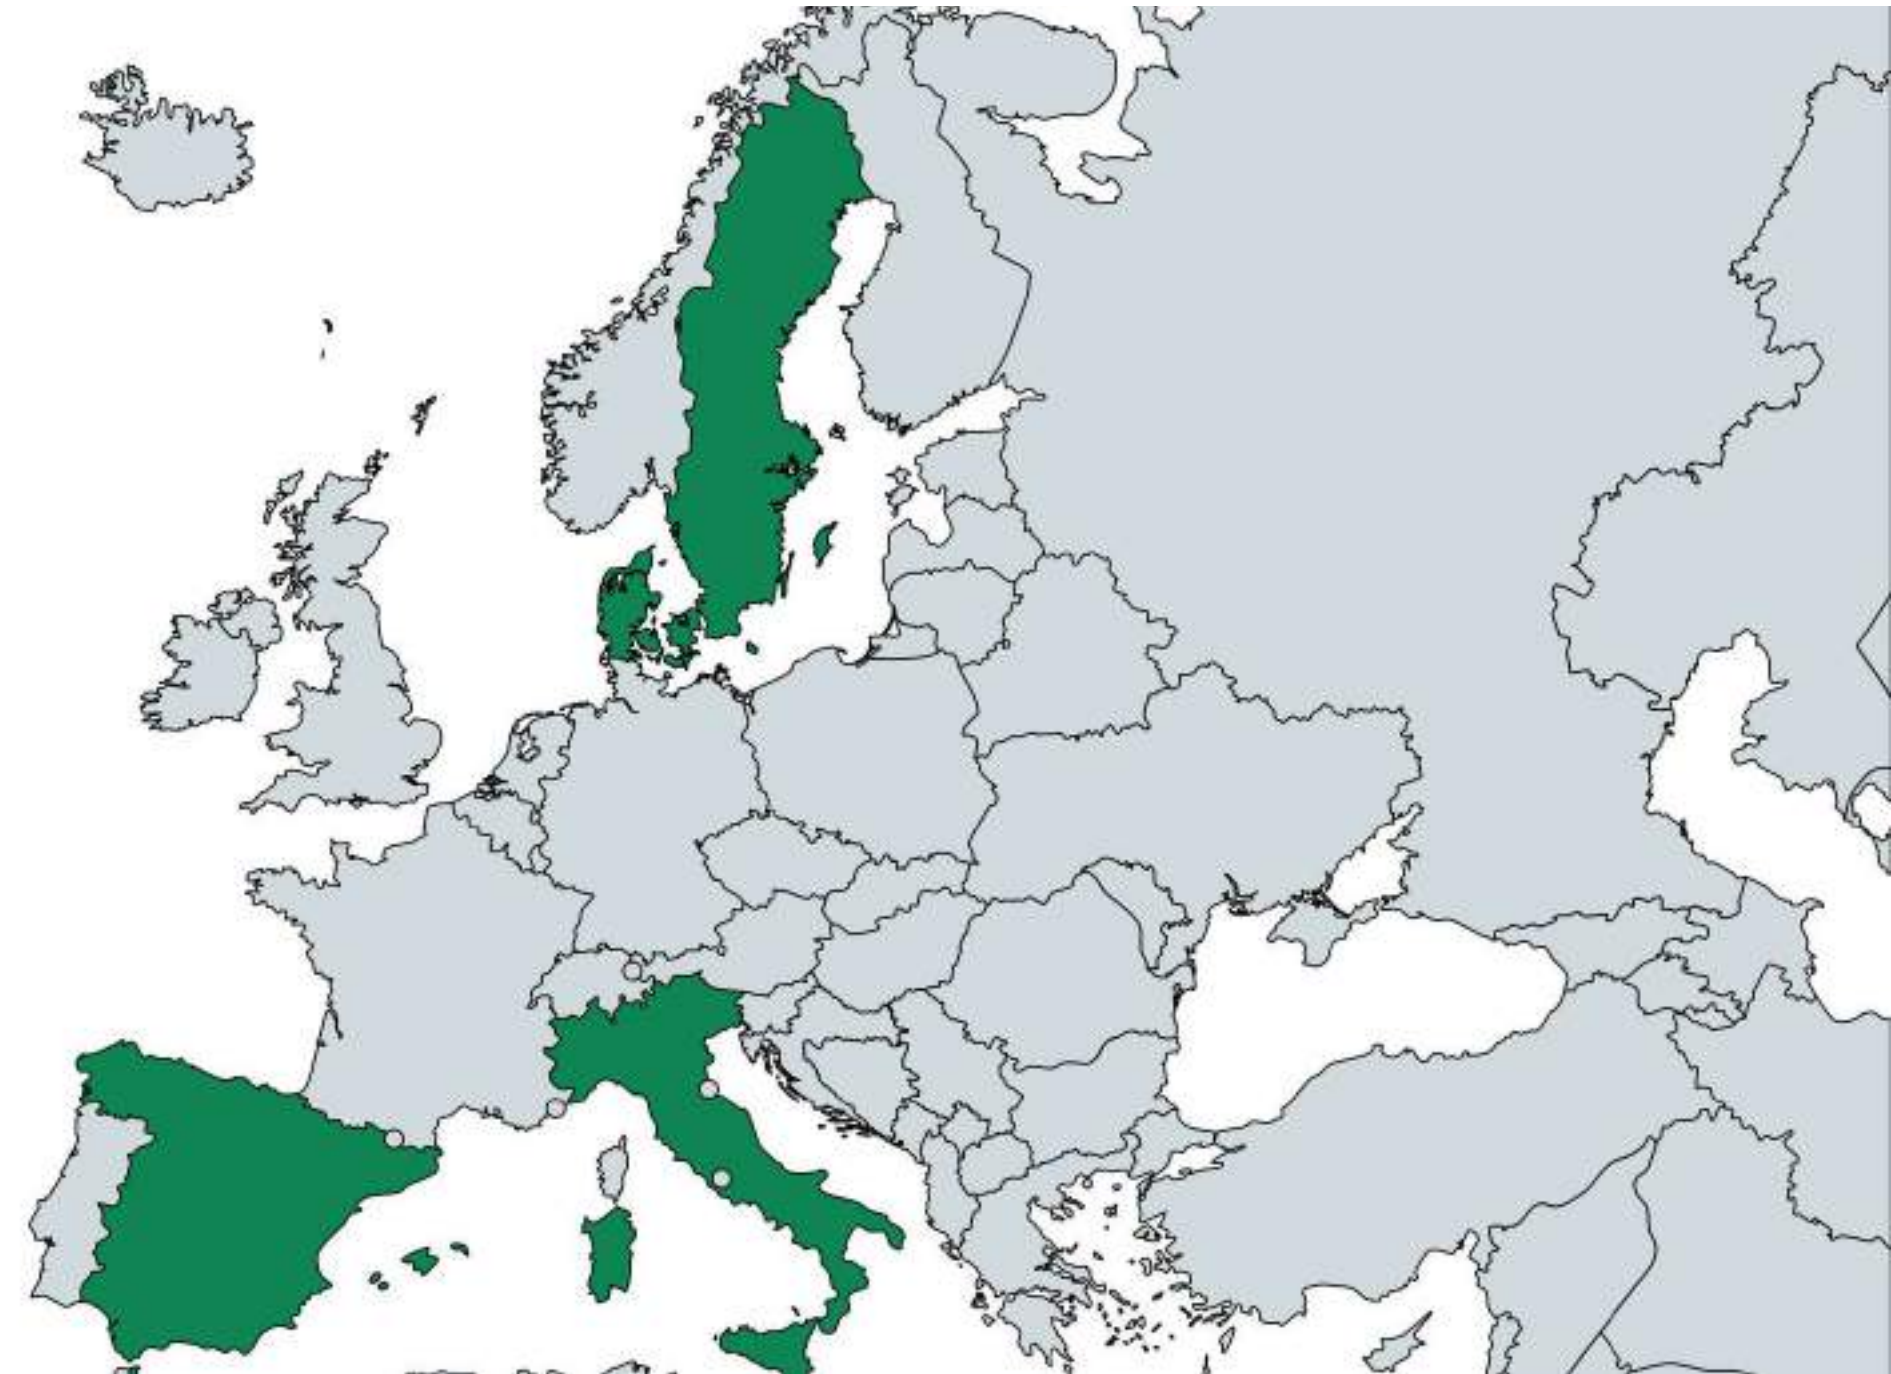

The overarching goal of the project is to catalyze the development of human capital within the renewable energy sector in Azerbaijan.
