

**GLOBAL
LEARNING
PROGRAM**

WE ARE INVITING!

PROFESSORS AND LECTURERS

GLOBAL LEARNING PROGRAM

ITS Surabaya is a leading university in the field of science and technology in Indonesia. ITS is ranked 164 in the QS Asian University Rankings 2021, and we are committed to proactively be engaged in internationalization in our efforts to become a world-class university.

We are inviting professors and lecturers from around the globe to take part in this common goal by participating in Global Learning Program (GLP). Through GLP, you will have the opportunity to directly deliver a guest lecture for ITS undergraduate students enrolled in the International Undergraduate Program (IUP) and expand your international exposure. You will have the chance to inspire IUP students in common subjects such as Mathematics, Physics, Chemistry, English, Technopreneurship, among others, according to your area of expertise.

DEADLINE

1. Before 31 January 2022 for Semester 2 (Spring) in 2022
2. Before 17 June 2022 for Semester 1 (Fall) in 2022

BENEFITS

- ITS Rector Decree
- Certificate of Appreciation
- Souvenir

Semester 2 (Spring)
Feb 2022 - Jun 2022

- English
- Physics 2
- Chemistry 1
- Mathematics 2
- Technopreneurship
- Insights and Applications of Technology

Semester 1 (Fall)
Aug 2022 - Dec 2022

- English
- Physics 1
- Chemistry 1
- Mathematics 1
- Technopreneurship
- Insights and Applications of Technology

*Number of students approx. 80-100 per meeting

TESTIMONY

GLP is such a well-organized program which allowed me to engage and share my insights on the given topic with ITS students. I had a wonderful session with the students actively participated in discussions and inquisitively asked questions. The experiences also helped me improve my teaching style and pedagogy. I highly recommend lecturers from all over the world to enroll in this program.

Dr. Norshah Aizat Shuaib – Universiti Malaysia Perlis

I think the Global Learning Program (GLP) of ITS is a great idea. I think this is an educational program unique to ITS that has deep and wide-ranging cooperation with overseas universities. Although it is a program that started under the COVID-19 situation, it is a program that can be continued in the future. First, students can take lectures by a wide range of leading researchers from overseas. Front-line researchers have a lot of experience. Lectures that add this experience and perspective are effective in maintaining learning motivation not only for specialized students but also for non-specialized students. Lectures by overseas professors can also convey to students different perspectives and philosophies from domestic professors. I think it will be a stimulus for non-specialized students.

Prof. Dr. Masato Tominaga – Saga University
